

HAYWOOD BUILDERS

A TOP QUALITY, FRIENDLY
AND EXPERT SERVICE

To Whom It May Concern

In the course of completing our four-room extension last year, I found Ian and Rick to be highly competent, hard-working and reliable individuals.

They were also most careful to ensure that any additional labour that they introduced to the project was equal to the high standards which they set themselves, and at no time was the project waiting in terms of the planned work we agreed they should undertake.

The extension was a big project, involving demolition and removal of old footings before new footings were established. The two-floor extension joined on two floors to the original house, which was also re-roofed in the process. We were resident during the project, and they ensured that the internal work was undertaken sensitive to the needs to control unnecessary mess,

The thoroughness and care shown is evident from the results of their work, and I am very pleased to provide this reference for their services.

Yours sincerely
