

# HAYWOOD BUILDERS

A TOP QUALITY, FRIENDLY  
AND EXPERT SERVICE

Dear Richard and Ian,

Many thanks for the fantastic job you have done on our kitchen extension/new conservatory.

The prospect of inviting strangers into our home for months, working for the most part when we were both out at work, was daunting but from our first meeting with you both we were instantly drawn to your friendly and trustworthy nature and were reassured immediately.

We found you to be very respectful of our home, trying to keep the mess and disruption to a minimum, which wasn't easy at times due to the nature of the job (a kitchen isn't the most practical room in the house to be without for too long!) You were also careful to ensure that any additional work required/costs incurred were discussed and explained beforehand and the finished job has met and exceeded our expectations.

We are very happy to provide this reference and would highly recommend you to anyone considering having building work undertaken and will definitely keep you first in mind for any future projects!!

Many thanks again and very best regards

Susan & Jon Ellis
